01 *Motto*

Prevention is better than Cure:
Be Aware, Prevent & Treat.

02 *Vision*

To scale new heights of excellence and quality in
service through focusing on Preventive Care
strategies in Seychelles.

03 *Mission*

To improve the health of Seychelles' communities we
serve, through educational workshops, outreach,
service, and creative partnerships by:

- Collaborating with medical colleagues in
Seychelles and Internationally, local communities,
organisations and professionals to strengthen
public health knowledge and preventions
- Supporting the provision of public health and
health services as a certified Industrial Health
Physician
- Strengthening my services to enhance the health
of the public through prompt consultations
